

# *It's All in the Finish*

## Five Reasons to Buy **UKINOX**

With so many brands and styles on the market, Ukinox stainless steel sinks shine above the rest.

In addition to European craftsmanship and more than 30 years of manufacturing expertise, Ukinox has introduced a high-polish European-style finish unlike any other in its price point to the United States.

Manufactured in Istanbul, Turkey since 1979, Ukinox has found the perfect combination of quality, style and pricing backed with a limited lifetime warranty for peace of mind.

While our finish is our most distinguishing feature, here are five other reasons to buy a Ukinox sink ...

1. **Three-piece Construction:** All Ukinox double bowl sinks are made in three pieces with the bowls welded to the deck. This creates a stronger sink than those that are stamped out of one sheet of stainless steel.
2. **Durable Heavy-Gauge 304 Stainless:** with the industry's highest percentage of chromium (18%) and nickel (10%) for an exceptional resistance to corrosion and stains.
3. **Thick Undercoating Material:** that is specially formulated and applied along with multiple extra-large sound pads to reduce sink noise while also insulating the sink to keep water at the desired temperature.
4. **Multiple Styles, Bowl Configurations, Shapes, Sizes and Depths:** choose from petite one bowl sinks for a bar to spacious double bowl and large single bowl models made to accommodate almost any sized bowl or pan. Ukinox has a sink that will fit your needs. Ukinox also makes a variety of accessories to enhance the look and functionality of our sink line -- from cutting boards that allow for prep work to bottom grids that protect the finish.
5. **European Craftsmanship at a Tremendous Value:** The entire Ukinox line was created with quality and value in mind. The new DX760 (shown above) is sized at a spacious 30-1/2" x 18-1/2" x 9" to accommodate almost any large bowl or pan. The enhanced sized bowl really highlights the sleek high-polish European finish to make the sink a focal point of any kitchen. The DX760 includes a basket strainer, mounting hardware, and

# Single Bowls
